My research advances the transparency, rigor, and reliability of clinical studies and evidence synthesis for healthcare decision making. I investigate how complex evidence is generated and evaluated, focusing on bias detection, systematic appraisal, and the validity of reasoning processes. I integrate participatory approaches to ensure robustness in real-world use.

I am currently developing a series of papers on a taxonomy of failure modes in LLM-assisted evidence synthesis, focusing on interpretive judgement tasks such as study screening and risk of bias assessment. This work characterizes two classes of failure: run-to-run nondeterminism, where identical prompt runs yield divergent judgements, and consistent outputs where high repeatability masks errors such as ungrounded reasoning or reliance on information outside the supplied evidence. For each of failure mechanisms, I specify the deployment conditions under which it arises, evaluation methods for detecting it, and mitigation strategies. Ultimately, I aim to build scalable, interpretable evaluation methods that strengthen AI evaluation and enable safe, trustworthy deployment in health policy and other high-stakes settings.

Nationality Canadian

Languages Fluent in English and French, intermediate German and Spanish

EDUCATION

2018 – 2014 (full-time)	**PhD in Clinical Epidemiology,** Cochrane Australia, Faculty of Medicine, Monash University, Melbourne, Australia Thesis: Methodological issues in conducting 'overviews of systematic reviews' (5 publications)
2008 –2003 (part-time)	**Master's in Public Health,** Athabasca University, Alberta, Canada Thesis: Cross-sectional survey on use of Complementary and Alternative Medicines by Canadian menopausal women (1 publication).
1993 - 1989	**BA Honours, Philosophy** Queens University, Ontario, Canada

AI SAFETY TRAINING & PROFESSIONAL DEVELOPMENT

- **BlueDot Impact, AI Strategic Safety Course**, Accepted participant, Oct 12, 2026
- **Anthropic AI for Science Program**, Award recipient with $25,000 USD in API credits, October 2026

RESEARCH EMPLOYMENT

Apr 2026 **Consultant**

Evaluation of Ireland's Department of Health evidence review entitled "Effectiveness of oral health promotion: An overview of reviews"

Apr 2024 – Apr 2026 **Senior Research Scientist**

HEOR division, Precision AQ

Expert consultant, developing and executing research strategies to demonstrate the value of new healthcare innovations to payers. Developed systematic literature reviews, indirect treatment comparisons (ITC), and network meta-analyses to support Health Technology Assessment (HTA) submissions. Led individual project tasks, including protocol development, statistical analysis plans, and technical report writing. Provided scientific insights to biopharma clients regarding evidence gaps and market access strategies. Contributed to peer-reviewed oncology publications through data extraction, quality control, statistical analysis planning, and scientific evidence review, including work formally acknowledged in published manuscripts (e.g., *"Real-World Evidence Evaluating Teclistamab in Patients with Relapsed/Refractory Multiple Myeloma: A Systematic Literature Review."* Cancers. 2025;17(7):1235; contribution formally acknowledged in the publication). Co-authored a systematic literature review of treatment outcomes in systemic sclerosis with or without interstitial lung disease, published as a conference abstract and presented at the 9th Systemic Sclerosis World Congress.

Mar 2023 - Mar 2024 **METHODOLOGIST AND RESEARCH ASSOCIATE**

Knowledge Translation Program, Dalla Lana School of Public Health, University of Toronto

Led a project to develop a risk of bias tool for network meta-analyses; and a built a database of 600 assessments of systematic reviews with or without meta-analysis (WISEST), so it can be used for testing and validation of a proposed machine learning model to assess systematic reviews with a user interface.

Mar 2021 – Feb 2023 **POSTDOCTORAL FELLOW**

Knowledge Translation Program, Dalla Lana School of Public Health, University of Toronto
Supervisor: Dr Andrea Tricco

I conducted various meta-research studies funded by a CIHR Project grant (2021-2024).

Mar 2019 – Mar 2021 **POSTDOCTORAL FELLOW**

Cochrane Hypertension Group and the Therapeutics Initiative, UBC
Supervisor: Dr Jim Wright
Conducted meta-research studies, teaching masters level courses, organising a monthly Methods Speaker Series, a Network Meta-Analysis Workshop, and methods workshops.

October 2022 **CONSULTANT**

US EPA's Office of Research and Development (ORD) Center for Public Health and Environmental Assessment (CPHEA)

Evaluation of the Ecological Database and Interactive Visualizations of Evidence Records (EcoDIVER). EcoDIVER is an online data portal that allows users to access and interact with scientific evidence. Each EcoDIVER project presents a collection of evidence, extracted from the published scientific literature, that addresses a specific topic or question. Within each project, users can view summary evidence visualizations; examine individual pieces of evidence; and filter evidence to focus on findings most relevant to them.

Mar 2020-ongoing **CONSULTANT**

Applied Statistics and Data Science Group (ASDa)

ASDa is the research support and general statistical consulting group of the Department of Statistics at the UBC. As a professional statistical consultant specialising in all types of reviews (e.g. systematic reviews with network meta-analysis), I help students and faculty with methods and data analytics.

July 2014 - Jun 2013 **INTERIM RESEARCH Manager**
Clinical Prevention Services, Systematic Reviews Division, BC Centre for Disease Control, Canada
Supervised five researchers, applied for CIHR and NIH grants, and ethics board applications, designed research protocols, analysed a randomised control trial on zinc for genital warts, and meta-analysis on diagnostic accuracy on self-collected versus clinician-collected sampling for chlamydia, gonorrhoea, and HPV.

Feb 2015- Mar 2013 **SCIENTIFIC WRITER**
Joanna Briggs Institute, South Australia
As a systematic reviewer, I updated content of evidence summaries and recommended practices. Conduct rigorous and extensive searching of the international literature on a given topic, which is then assessed and appraised using a standardised tool and finally graded based on the evidence found.

Mar 2012 – Aug 2010 **RESEARCHER (Consultancy)**
WorkSafeNB and Athabasca University, Canada
Conducted a systematic review, tested the reliability and validity of the scale, and did exploratory factor analysis (SEM) for the study "The relationships between workplace safety culture, practices and injury claims." Also did data management and statistics (re-coding variables using syntax and doing the matching) for the case control portion of the study.

Nov 2010 – Jan 2011 **RESEARCH ASSISTANT (Contract)**
Centre for Nursing and Health Studies, Athabasca University, Alberta, Canada
I conducted the data collection, effect size calculations, and mega-regression for two meta-analyses entitled "Head trauma and the onset of multiple sclerosis: A meta-analysis and systematic review of observational studies," and a second related to surgical interventions and the onset of MS.

Jan 2010 - May 2008 **RESEARCH ASSISTANT (Contract)**
Centre for Nursing and Health Studies, Athabasca University, Alberta, Canada
I conducted the literature review for the mixed-methods study called "Perceived Stress and General Health of Master's Students and Practicing Nurses in Urban Bangladesh."

Jan 2010 - May 2008 **RESEARCH ASSISTANT (Contract)**
Centre for Nursing and Health Studies, Athabasca University, Alberta, Canada
I recruited participants and collected data for the study "Evaluation of a Website for Electronic Mentorship in Newly Graduated Practicing Registered Nurses."

June 2008 – May 2007 **RESEARCHER (Employee)**
Positive Living Society of BC and the BC Centre for Excellence in HIV/AIDS, Vancouver
I conducted an environmental scan of the HIV knowledge of physicians in British Columbia (BC).

July 2001 - Jan 2000 **RESEARCH INTERN (Contract)**
International Institute for Child Rights and Development, University of Victoria, BC, and Save the Children (UK), Southeast, East Asia, and the Pacific Regional Office, Bangkok
I wrote a situational analysis on the laws and policies of governments in Southeast Asia pertaining to migrant ethnic children's rights (250-pages). I co-wrote and edited a manual section on juvenile justice and child rights using the Convention of the Rights of the Child.

UNIVERSITY TEACHING

Jan 2023-2020 **TEACHING COORDINATOR**
Introduction to Systematic Reviews and Meta-Analyses (CHL7001H S3). Dalla Lama School of Public Health. University of Toronto. Instructors: Drs. Andrea Tricco and Sharon E. Strauss. This was my fourth year as a teaching coordinator for this course.

2022-2018 **INSTRUCTOR PHAR 497 – DIRECTED STUDIES**
Department of Pharmaceutical Sciences, University of British Columbia
5 Phar 497 courses taught on study design and critical appraisal, and practical conduct of methods studies. I am currently teaching this summer session 2021.

2020 - 2019 **UBC GUEST LECTURER**
1. Vancouver Summer Program Course: Biological and Clinical Aspects of Aging (Package L)
2. HMKN 545C 001 Introduction to Systematic Reviews in Health Promotion Sciences (2x)
3. SPPH 516 - Methods for Systematic Reviews in Health Research

2019 - 2015 **INSTRUCTOR**
School of Public Health and Preventative Medicine, Monash University
Course coordinator for two courses:
3x MPH5239 Systematic Reviews and Meta-analysis- Masters of Public Health courses (3 times);
1x Undergraduate paramedics course - HSC2300 – Health promotion and disease prevention (once).

WORKSHOPS AND TRAININGS

- 2025-2019. UBC Therapeutics Initiative Methods Speaker Series. I created and led this monthly workshop series for seven years, which ran every last Wednesday of the month. Presentations were an hour long on the topic of evidence synthesis methods. List of presentations: https://www.ti.ubc.ca/2025/12/08/methods-speaker-series/
- June 3-5, 2019. Three day Network Meta-analysis workshop. I organised and led this thee day workshop which was a collaboration between the UBC Therapeutics Initiative, Cochrane Collaboration, and Statistics Department of the University of British Columbia.

GRANTS AWARDED

Total: $3,902,271 in grant funding

- **October 2026. Anthropic AI for Science Grant. $25,000 USD.** Using the taxonomy of failure mechanisms that can affect the reproducibility and validity of LLM-assisted read-and-evaluate tasks, we will empirically test these mechanisms using a reference-standard dataset of systematic reviews and appraisal judgments we built, including source quotations and human rationales. We will first repeat identical tasks to identify repeat-run variability, and then conduct controlled sensitivity experiments to test where outputs may appear repeatable but remain systematically unreliable (i.e., hidden failures).
- **September 2023. Research Software Development Support Program from the University of Toronto.** Support for seven data science students to work for 4-6 months on the User Interface (website) for the WISEST AI Project (equates to **$52,000** in kind). Co-PIs **Lunny C** and Tricco AC.
- **April 2023-2025. AI for Population Health and Health Systems Implementation Grant. $150.000.** Tricco AC, Lunny C, et al. "Artificial intelligence decision support tool to assess the quality of systematic reviews on the

same topic". Two years of funding for salary support and publications to develop the WISEST AI tool to automatically assess the biases in systematic reviews.

- **Summer 2023. Summer Undergraduate Data Science (SUDS) Opportunities Program, University of Toronto. $7500** for one summer student to work on our systematic review dataset and to develop pilot code. Machine learning to facilitate quality appraisal. Co-PIs **Lunny C**, and Tricco AC.
- **2023- 2026. CIHR Project Grant $416,925.** Update of Preferred Reporting Items for Systematic Reviews and Meta-Analyses (PRISMA) extensions for network meta-analyses, rapid reviews, and scoping reviews. PIs Veroniki AA, Tricco A, Hutton B, Stevens A, and Co-PIs **Lunny C**, Strauss S, Welsch V. I cannot be the lead PI as a postdoctoral fellow.
- **2023- 2026. CIHR Project Grant $100,000.** Scoping review on environmental sustainability in healthcare. PIs Dr Kanji S and Co-PIs Drs **Lunny C**, Hutton B, Moloo H, Tricco A, Foster A, Kuo A, Sajwani S, Thabet P.
- **2021-2023. CIHR Project Grant $360,116**: The development of a risk of bias assessment tool for network meta-analysis. PIs Tricco A, Wright JM, Whiting P. Co-PIs **Lunny C**, Hutton B, Tunis M, Strauss S, Watt J. I cannot be the lead PI as a postdoctoral fellow. However, I conceived of this study, recruited Drs Tricco, Wright and Whiting, convened the steering and stakeholder groups, and wrote the grant. If I get a faculty position, Dr Tricco has said that she would transfer the grant to my new institution under my name as lead principal investigator. This 3 year study aims to conduct a methodological review to help generate a preliminary list of items to assess the risk of bias in network meta-analysis (NMA). Previously validated methods are proposed for the review and have been registered and piloted. The second objective focuses on conducting a Delphi to develop consensus across a minimum of 22 international experts on which items to include in tool. The third objective aims to pilot test the tool among three distinct groups at two Canadian universities and a panel of NMA experts.
- **2022-2024. Canadian Cancer Society Knowledge to Action Grant $74,598**. Validity of routinely collected health data in recording breast cancer recurrence, progression & mortality: a scoping review of the literature. Nominated PI: B Hutton, Co-PI: Kednapa Thavorn, Additional investigators: Sharon McGee, Angel Arnaout, Greg Pond, Carole Lunny, Argie Veroniki, Hely Shah, Mark Clemons
- **2021-2022. CIHR Operating Grant $2,100,000**. COVID-19 Evidence Network to support Decision-making (COVID-END) – Extension. PIs Grimshaw JM. ; Lavis JN ; Santesso NAM ; Smith MM ; Tricco AC.
- **2020-2022. CIHR Project Grant $110,925**: Models for Primary Medical Care, Nursing Care and Personal Care in Long-Term Care Homes: Systematic Reviews to Inform Change in Canada. PIs Hutton B, Watt J, and Co-PIs Garritty C, Lunny C, Shea B, Straus S, Welch V, Wong E.
- **2020-2022. CIHR Project Grant $200,000**: RESILIENCE (RESponsive Inquiry Linking IntervENtions and Caregiving Experiences). This network meta-analysis seeks to compare the effectiveness of interventions for improving the quality of life and mental health of family and friend caregivers of persons living with dementia. Most virtual and in-person interventions are not directly compared in RCTs, resulting in a knowledge gap in this area. Watt J, Lui B, Goodarzi ZS, Tricco AC, **Lunny C**, and 12 others. I will be assisting with all steps in the conduct of the network meta-analysis.
- **2020-2021. Fall CIHR Operating Grant $93,967**: The effectiveness and acceptability of available interventions for methamphetamine/ amphetamine use disorder. Buxton J, Karamouzian M, **Lunny C**, et al. Summary: This study aims to review international and Canadian experiences in both harm reduction and treatment (psychological and pharmacological) interventions aimed at people with methamphetamine/amphetamine use disorder. I am a co-investigator on this grant and will be doing the statistical analysis.
- **2019-2021. UBC's Strategic Investment Fund $102,449**. Graduate Student Wellness and Support. Hunt M, Lunny C, and the Graduate and Postdoctoral Education Committee (GPEC). Summary: Improve wellbeing outcomes for Faculty of Medicine research graduate students by creating and launching a research graduate student support model. I am a co-investigator on this grant.
- **2010-2012. WorkSafeBC Research at Work Grant $11,991**, for the study "An evaluation of the impact of the WorkSafe New Brunswick Focus Firms intervention on reported safety behaviour and injury outcomes." Barneston B, Lunny C, Fraser S.www.wcb.ns.ca/Portals/wcb/Barnetson_WSNB_Focus_Firms.pdf I conceived of this study, and acted as co-investigator and research assistant on this grant.

- **2008. CIHR Operations Grant $172,300**. Jones J, Verhoef MJ, Hillier JCR, Hoo AC, Kerr T, Lunny, C, Mulkins AL. The living well lab: Establishing a community based research institute to assess the impact of complementary and alternative medicine on the quality of life and rehabilitation of persons living with HIV/AIDS. I was a co-investigator on this grant and helped run the study.
- **2006. GlaxoSmithKline Pharmaceuticals Grant $11,500**, for production and printing of CD-Rom called "Retro Woman: Navigating Advanced HIV/AIDS Treatment" for the Positive Living Society of BC. I was the principal investigator, secured the funding and coordinated the project.
- **2004. Merck Frosst Pharmaceuticals Grant $20,000**, for two educational Shaw Cable TV Programs for the Positive Living Society of BC. I was the principal investigator and secured the funding. I was the principal investigator, secured the funding and coordinated the project.

ACADEMIC AWARDS

Total: $259,449 in scholarship and award funding

- 2022. $800 Scholar award for conference support. International Congress on Peer Review.
- 2022. $1000 Travel award for conference support. St Michael's Hospital, Unity Health Toronto.
- 2020. $750 Travel award for conference support. University of British Columbia.
- 2019-2014. $170,173 PhD scholarship. Monash University - International Postgraduate Research Scholarship (IPRS). Covered tuition fees and overseas student health coverage.
- 2019-2014. $78,547 PhD scholarship. Monash University - Australian Postgraduate Award (APA). Paid a tax free stipend for living expenses.
- 2016. $1000 Travel award for conference support. Monash University.
- 2015. $1175 MIGR Travel Grant. Monash University Institute of Graduate Research.
- (not taken) 2018-2014. University of Adelaide - International Postgraduate Research Scholarship (IPRS) and Australian Postgraduate Award (APA). $170,173 and $78,547, respectfully.
- 2008. $1000 Graduate Research Fund Award. Athabasca University.
- 2007. $3000 Excellence in Research Scholarship Award. Athabasca University.
- 1989. $2000 university scholarship. Pat Gilbert Award.

INVITED PRESENTATIONS AND SELECTED CONFERENCE ABSTRACTS

INVITED PRESENTATIONS

- December 5, 2026. Cochrane Colloquium Methods Symposium. Krakow, Poland. Oral presentation with small discussion groups afterwards. When the Same Prompt Gives Different Answers (and the Same Answer Isn't Always Right): A Taxonomy of Failure Mechanisms, Testing, and Mitigation Strategies for LLM-Assisted Evidence Synthesis Read-and-Evaluate Tasks.
- January 24, 2025. KT Connects webinar hosted by Michael Smith Health Research BC and Arthritis Research Canada. Building the WISEST AI Tool: A Machine Learning approach to automate critical appraisal at the systematic review-level. https://healthresearchbc.ca/kt-webinars/
- February 1, 2024. Department of Health information Science Webinar Series, University of Victoria. Oral: Building the WISEST AI Tool: A Machine Learning approach to automate critical appraisal at the systematic review-level. https://www.uvic.ca/hsd/hinf/home/news/current/hinf-seminar-series-2023-2024.php
- January 19, 2023. Evidence Synthesis Ireland Webinar Series. Oral: Advances in methods for overviews of reviews.
- October 21, 2022. Systematic Reviews and Meta-Analysis Methodology Seminars from the of the American Educational Research Association. Oral: Advances in methods for overviews of reviews. Found at: https://www.srmasig.org/seminar/
- March 24, 2022. Metrics International Forum. Oral: Groundwork for the development of a new risk of bias tool for network meta-analysis.
- November 11, 2021. Bias Method Group Annual Conference. Oral: Methodological Review to Develop a List of Bias Items for Potential Inclusion in a New Risk of Bias Tool for Network Meta-Analysis.

- February 20, 2021. Faculty of Medicine, Postdoctoral Fellow Peer-to-Peer Workshop Series. "The Replicability Crisis and the Solution: Open Science Practices".
- October 30, 2020. North American Systematic Review Methods Virtual Research Day. Methodological review of items for assessing the risk of bias in network meta-analyses provides groundwork for the development of a new risk of bias tool for network meta-analysis
- June 16, 2020. BC Ministry of Health. Health Innovation Hub's "Knowledge Exchange" program. Risk of bias in systematic reviews: Caution needed when citing gold standard systematic reviews.
- December 13, 2019. Addressing common challenges in the use of systematic reviews. International Experts Workshop on Methods for Using Systematic Reviews, Berlin, Germany. Organised by The Robert Koch Institute, in collaboration with the World Health Organization and the London School of Hygiene and Tropical Medicine.
- October 31, 2019. Overviews of reviews: Special Session on evolving methods for evidence synthesis. Guidelines International Network Conference, Adelaide, Australia.
- November 8, 2019. Network Meta-analysis Workshop. SPOR Evidence Alliance. Li Shing Knowledge Institute, St Michael's Hospital, Toronto.
- February 22, 2019. Continuing Education day for the Health Library Association of BC. Development and validation of the filter for Overviews of systematic reviews; and the validation of 5 filters for CPGs.
- February 12, 2019. CHEOS Work in Progress Seminar. Introduction to Overviews of systematic reviews.
- January 7, 2019. C2E2 Lunchtime seminar. Introduction to Overviews of systematic reviews.
- July 2018. Woodward Librarians. Integrating open practices in the research workflow with the Open Science Framework.
- April 2017 Cochrane Australia Learning Week, Melbourne, Australia. Co-facilitating a full day workshop on "Overviews of reviews and appraising systematic reviews using ROBIS [a quality assessment tool]". Summary of workshop available at: http://learningweek.cochrane.org.au/index.php/courses/#overviews

PEER REVIEWED CONFERENCE ABSTRACTS IN 2026 ONLY

- **(Precision AQ work)** Glowienka E, Steinfield I, Coady K, **Lunny C**, Wilson FR, Pepper AN, et al. *Heterogeneity in treatment outcomes for systemic sclerosis with or without interstitial lung disease: a systematic literature review.* Journal of Scleroderma and Related Disorders. 2026;11(Suppl 1):A140.2. doi:10.1136/JSRD-2026-SSWC.163. (Poster)
- **Lunny C**, Jain N, Nazari T, et al. Exploring the methodological quality and risk of bias in 200 systematic reviews: a comparative study of ROBIS and AMSTAR-2 tools. Poster presented at: JBI International Conference; 2026.

PROFESSIONAL MEMBERSHIPS AND COMMITTEES (current)

- Cochrane Hypertension Group, Cochrane Rapid Reviews Methods Group, Cochrane Statistical Methods Group, Cochrane Patient Reported Outcomes Methods Group
- SPOR Evidence Alliance, Toronto, Ontario
- From Jan 2019 to March 2021 I was the Postdoctoral representative of several UBC committees including:
    1. UBC Faculty of Medicine Research Committee
    2. UBC Graduate and Postdoctoral Education Committee
    3. UBC Faculty of Medicine Post-Doctoral Professional Development Team
    4. UBC Research Pillar Advisory Committee

EDITOR POSITIONS

I am committed to open access and data sharing in scientific publishing. I am an academic editor for the journal PeerJ, a preprint server. I am also an active peer reviewer for several journals.

2024-Current: ACADEMIC EDITOR for the journal PeerJ
2023-2025: ACADEMIC ADVISORY BOARD MEMBER for the journal ResearchSquare
2024-2025: ASSOCIATE EDITOR for the journal Systematic Reviews
2019-2024: STATISTICAL EDITOR for the Cochrane Colorectal Cancer Group and the Cochrane Hypertension Review Group

Current: PEER REVIEWER for various journals including the Journal of Clinical Epidemiology, and the BMC journal Systematic Reviews.

PROJECT MANAGEMENT

Apr - June 2016-2009

CONSULTANT: FUND/PROJECT ANALYSIS, SYNTHESIS & REPORT PREPARATION

The Multi-Partner Trust Fund Office, United Nations Development Program, Home-based

Every year since 2009, I have analysed, and synthesized various country evaluation reports including: the Mali Climate Fund, Central Fund for Avian and Human Influenza Action, the Millennium Development Goals Achievement Fund, the Haiti Reconstruction Fund, DRC Stabilisation and Recovery Fund, DRC Fighting Impunity Joint Programme, the Ethiopia One Fund, the Lebanon Recovery Fund, Mali Stabilization Fund-FNSSE, and the Kyrgyzstan One Fund. I have been re-hired on nine separate SSA contracts.

2015-2016

CONSULTANT: Analysis of NCPI data for 2014

UNICEF, New York Office, home-based

Evaluation of data on 171 countries on how HIV and AIDS programming was integrated into national- level sectoral policies, strategies, and plans as well as multisectoral national development and poverty alleviation strategies for children and families. I conducted the quantitative and qualitative analysis based on the approved analysis plan, and compiled tables, charts and produced a draft report. This report was presented as an oral at the International AIDS Conference in 2016.

Dec 2012 – Jan 2011

DEPUTY DIRECTOR

International Union Against Tuberculosis and Lung Disease, Mandalay, Myanmar

I co-supervised a staff of 40 physicians and administrative workers for the HIV and tuberculosis program which cared for and followed a cohort of 2000 patients in Mandalay, Myanmar.

Jan 2010 - July 2008

KNOWLEDGE SYNTHESIS CONSULTANT

International Centre for Infectious Diseases/ National Collaboration Centre, Winnipeg

I wrote drafts and co-edited 12 evidence reviews for the National HIV Prevention Project. The Program aimed to develop and publish evidenced based articles to aid in health system strengthening and evidence informed decision making. These evidence reviews can be accessed at https://nccid.ca/publications/?fwp_subjects=hiv

July 2008 – Apr 2001

REGIONAL PROGRAM COORDINATOR

BC Centre for Excellence in HIV/AIDS and the Positive Living Society of BC, Vancouver

I coordinated, trained and supervised 7 staff and 30 HIV-positive volunteer facilitators to deliver workshops on a regional level on antiretroviral medications for doctors and nurses living in 39 small communities throughout BC and the Yukon. I fostered special coalition partnerships through diplomacy, patience, and cultural tact with local, national, and international AIDS service organizations, in the context of a volatile political arena. I worked with drug users, First Nations, people of colour, women, the gay and lesbian community, and inmates. I integrated harm reduction policies.

(Apr 2005 – Aug 2005)

COMMUNITY REPRESENTATION AND PATIENT ENGAGEMENT COORDINATOR

Positive Living Society of BC, Vancouver

I engaged with 20 HIV+ patient partners and strengthened their advocacy skills to lobby effectively for improved access to HIV prevention, treatment, care and support. For example, I supported patient partners in organising the campaign for formula to be free under the government medical insurance program for HIV-positive mothers. This coordinator position was cancelled due to loss in funding after 5 months.

Sept 2001 – July 2001 **CONSULTANT**

Inter-Agency Coalition on AIDS and Development (in collaboration with the International Institute for Child Rights and Development), Thailand and Myanmar

I organized a workshop called "Children and Youth in Border Areas: HIV/AIDS and Rights Issues," in Chiang Mai, Thailand. Participants included government representatives, donors, international non-governmental organisations such as UNAIDS, UNICEF, IOM, Save the Children, Family Health International, and local non-profit organisations. I organized six focus group discussions with migrant ethnic youth affected by HIV/AIDS in two communities in rural Myanmar.

CONFERENCE PRESENTATIONS AND WORKSHOPS

- Sept 3-6, 2023. Cochrane Colloquium in London, UK. Orals: The development of a new risk of bias tool for network meta-analysis, and Introduction to the WISEST (Which Systematic Evidence Synthesis is best) Project: Developing an automated clinical decision-support algorithm to choose amongst systematic review(s) on the same topic. Poster: Decision makers find it difficult to compare and select similar systematic reviews based on quality, methods and results: a cross-sectional survey.
- October 6-7, 2022. EBVRES Online Conference. Short orals: A new taxonomy was developed for overlap across 'Overviews of systematic reviews': a meta-research study of research waste; The development of a new risk of bias tool for network meta-analysis; Over half of clinical practice guidelines use non-systematic methods to inform recommendations: A methods study (virtual)
- September 8-10, 2022. International Congress on Peer Review and Scientific Publication. Oral: Groundwork for the development of a new risk of bias tool for network meta-analysis (virtual)
- Sept 18-22, 2022. Guidelines International Network (GIN) Conference. Short Oral: Introduction to the WISEST (Which Systematic Evidence Synthesis is best) Project: Developing an automated clinical decision-support algorithm to choose amongst systematic review(s) on the same topic. E Poster: Introduction to the RoB NMA Tool to assess the risk of bias in a network meta-analysis; E-poster. Advances in Overviews of Systematic Reviews: Prevalence, factors affecting citation rates and journal impact factor, and a new taxonomy for overview topic overlap
- July 19, 2022. Society for Research Synthesis Methodology. Oral. Advances in Overviews of Systematic Reviews: Prevalence, factors affecting citation rates and journal impact factor, and a new taxonomy for overview topic overlap.
- June 2, 2022. Canadian Association for Health Services and Policy Research (CAHSPR). 2 posters. Over half of clinical practice guidelines use non-systematic methods to inform recommendations: A methods study; and A new taxonomy was developed for overlap across 'Overviews of systematic reviews': a meta-research study of research waste.
- April 1, 2022. UBC's Centre for Health Services and Policy Research (CHSPR). posters. Over half of clinical practice guidelines use non-systematic methods to inform recommendations: A methods study; and Methodological review of items for assessing bias in network meta-analyses provides groundwork for the development of a new risk of bias tool for network meta-analysis.
- May 6, 2022. KT Canada Conference. 2 posters: A new taxonomy was developed for overlap across 'Overviews of systematic reviews': a meta-research study of research waste; and The development of a new risk of bias tool for network meta-analysis.
- November 4, 2021. Virtual CADTH Symposium. Oral: Methodological Review to Develop a List of Bias Items for Potential Inclusion in a New Risk of Bias Tool for Network Meta-Analysis.
- October 25, 2021. Guidelines International Network (GIN) Conference.
- \Posters: Managing overlap of primary study results across systematic reviews: practical considerations for authors of overviews of reviews; and 'Overviews of reviews' informing clinical practice guideline development: A meta-epidemiological study. Orals: Over half of clinical practice guidelines use non-systematic methods to inform recommendations: a methods study and Methodological review of items for assessing bias in network meta-analyses provides groundwork for the development of a new risk of bias tool.

- October 20, 2021. What Works Global Summit. Topic overlap and research waste at the 'Overviews of systematic reviews' level: a meta-research study
- May 25, 2021. APT Research Day, Poster presentation. Validation of Five Search Filters for Retrieval of Clinical Guidelines Produced Low Precision
- May 17, 2021. Canadian Association for Health Services and Policy Research (CAHSPR) Conference. Oral presentation. Methodological review of items for assessing the risk of bias in network meta-analyses provides groundwork for the development of a new risk of bias tool for network meta-analysis
- March 31, 2021. TI Methods Speaker Series. Methodological review of items provides groundwork for the development of a new risk of bias tool for network meta-analysis
- June 3-5, 2019. Network Meta-analysis workshop. Therapeutics Initiative, Cochrane Collaboration and University of British Columbia.
- 2019 JBI/GIN Conference, Adelaide, Australia. Oral presentation on "Using the results of systematic reviews, 'overviews of systematic reviews', and network meta-analyses to inform clinical practice guideline recommendations."
- 2019 JBI/GIN Conference, Adelaide, Australia. Oral presentation on "Validation of five search filters for retrieval of clinical guidelines produced low precision."
- 2019 Cochrane Colloquium, Santiago, Chile. Oral presentation on "Using the results of systematic reviews, 'overviews of systematic reviews', and network meta-analyses to inform clinical practice guideline recommendations."
- 2019 Cochrane Colloquium, Santiago, Chile. Poster on the "Validation of five search filters for retrieval of clinical guidelines produced low precision."
- 2018 Cochrane Colloquium, Edinburgh, Scotland. Long oral presentation on "Mapping methods to deal with commonly encountered scenarios in overviews of reviews."
- 2018 Cochrane Colloquium, Edinburgh, Scotland. Poster on the "Assessment of the completeness of reporting of methods in overviews of systematic reviews."
- 2017 Research Bazaar Conference, University of Melbourne, Australia. Lightning talk on "Overviews of reviews and evaluating methods".
- 2017 Global Evidence Summit, Cape Town, South Africa. Workshop on "Developing GRADE guidance for overviews of systematic reviews". https://abstracts.cochrane.org/2017-global-evidence-summit/developing-grade-guidance-overviews-systematic-reviews
- 2016 International AIDS Conference (AIDS 2016), Melbourne, Australia. Poster on "What is the status of national commitments and policies for multi-sectoral HIV and AIDS response for vulnerable children?"
- 2016 AMREP EMCR Conference, Monash University, Melbourne, Australia. Poster on "Retrieval of overviews of systematic reviews in MEDLINE was improved by the development an objectively derived and validated search strategy"
- 2016 Alfred Research Week, Monash University, Melbourne, Australia. Poster on "Retrieval of overviews of systematic reviews in MEDLINE was improved by the development an objectively derived and validated search strategy"
- 2016 Cochrane Colloquium, Seoul, Korea. Oral presentation "An inventory of methods for overviews of systematic reviews of interventions: mapping the evidence for the methods"
- 2015 Australasian Cochrane Symposium, Melbourne, Australia. Poster on Retrieval of overviews of systematic reviews in MEDLINE was improved by the development an objectively derived and validated search strategy.
- 2015 Cochrane Colloquium, Vienna, Austria. Presentations on: (a) Retrieval of overviews of systematic reviews in MEDLINE; and (b) evidence map protocol of methods in overviews.
- 2015 BC Centre for Disease Control (CDC) Research Week symposium, Vancouver, Canada. Poster on A systematic review of RCTs evaluating the impact of short message services (SMS) on sexually transmitted infections (STI) outcomes.
- 2014 BCCDC Research Week symposium. Poster on RCT of oral zinc for the treatment of genital warts.

VOLUNTEERING

VOLUNTEER 2018 – current. BC Mountaineerg Club and the Alpine Club of Canada. Mentor and teach rock climbing and backcountry skiing.
VOLUNTEER 2016-2015 Graduate Student Representative, School of Public Health and Preventative Medicine, Monash University.
VOLUNTEER 2014 International AIDS Conference, in Melbourne, Australia.

SOFTWARE EXPERIENCE

I am skilled with MS Office applications (Word, Excel, PowerPoint, Access, Internet Explorer, Outlook, and Acrobat Professional), statistical packages such as R, RevMan 5.3, and Stata 13, other software such as surveymonkey, Reference Manager, EndNote, NVivo, and specialised database software. I am skilled in packages for doing network meta-analyses such as BUGSnet for Bayesian network meta-analysis (NMA) in R, and Stata for frequentist NMA.
